Cooks and Waiters Strike in San Francisco May Involve Meat Exports.

Manager Waller of the Metropolitan Meat Company has received advices from correspondents in San Francisco that the strike of the Cooks and Waiters' Union of that city is likely to have a far-reaching effect and that it may possibly extend to Honolulu. As there are many unions indirectly connected with the Cooks and Waiters' Union and the restaurant business generally, the meat men may become involved in the fight as well, As yet there is no disposition on their part to affect the export trade. There is no union involving any of these classes of employes in Honolulu. The letter in

part is as follows: "The labor problem ..ere is very serious. The Cooks and Waiters' Union, who belong to the Affiliated Labor Unions, have gone on a strike, and it looks like the butchers, milkmen and teamsters will take up their fight. The butchers would not cut any meat for non-union restaurants, and the milkmen and teamsters refuse to deliver any goods to them. From what I hear, the butchers in Butchertown may strike Saturday. I telephoned to Mr. Hough of the Western Meat Company today and he says he expects a strike, and it will cripple him somewhat, but he thinks he will get along. There seems to be a feeling that all the labor unions will take up the fight, and if they do they will give this city a black eye."

American Naval Charts in Demand.

A great number of inquiries which have been recently received from foreign navies by Captain C. C. Todd, chief hydrographer of the navy, attest to the remarkable prestige this branch of our naval service has gained abroad. Our hydrographic service is conceded to be more advanced and complete than that of any other navy in the world, and foreign navies are endeavoring to emulate the example set by our own advance in this line. Requests for information on various points come from Spain, France, Greece and practically all of the European nations, and all proper information is given without reserve.

In some cases foreign naval authorities have offered to pay for valuable bits of information, concerning a reef, perhaps, which is uncharted on their own maps or the unknown depth of water in some channel. But all that is asked in return by the Hydrographic Office is that the inquirer contribute to the knowledge already in hand at Washington as far as possible, The pilot charts which are issued monthly by the officers are fast gaining an almost universal reputation. They give besides data of strictly technical nature, weather forecasts for the ensuing month, covering practically the whole

It is said that Castle & Cooke and Brewer & Co. contemplate shipping all of their sugar via the Horn in future. The big shipping combine which has just been effected, and the advent of the American-Hawaiian Steamship Company is said to be responsible for this action. The matter has not yet been definitely decided upon, however. The steamer Noeau, from Kauai yesterday, brought Mrs. K. N. Kinney,

and four deck passengers. The Colon, with Porto Ricans, from Port Los Angeles, is expected here tomorrow.

W. G. Irwin & Co., agents for the Oceanic Steamship Company, were advised by the last mail from the Coast that the Sonoma, scheduled to sail from Sydney for San Francisco, via this port, on April 30, was not to have left until the 8th instant, or thereabouts. The Mariposa, as before announced, will take the Sonoma's place, leaving the Coast on the 30th instant. The Mariposa's place on the local run will be taken by the Zealandia.
